New Brevini® Evolution™ Series Winches

Reliable strength and performance

STEEL SOUL
New BWE Winch Series

Each of the winches in this series has been developed to provide superior technical features leading to increased durability, improved product performance and a higher degree of safety, a factor which is of primary importance in the marine industry.

Key features range from the high-performance gears to the construction quality and materials used to the hi-tech torque sensors and electronic devices.
New BWE Winch Series

Each of the winches in this series has been developed to provide superior technical features leading to increased durability, improved product performance and a higher degree of safety, a factor which is of primary importance in the marine industry.

Key features range from the high-performance gears to the construction quality and materials used to the hi-tech torque sensors and electronic devices.

Addressing your needs

Fully Certified Dana is committed to improving the performance and productivity of your equipment. Thanks to their design and carefully selected materials used to ensure top-class operation and safety, these winches are ideal for all major marine industry requirements and will guarantee lower cost of ownership.

Providing support and expert advice at every step of the way, Dana is present globally and locally to guide your choice and assist you throughout the product’s lifecycle.

Specifically designed for marine industry applications, all winches in the range are fully certified before leaving our factory. Moreover, they have received design approval according to the following certifications: DNV-GL, ABS and API-2C.

Exclusive accessories

Fully equipped with innovative accessories and integrated electronic devices, the winches enable greater control for safer operation and longer rope life.

- **Pressure Roller**
- **Speed Sensor**
- **Safety Wraps Limit Switch**
- **Personnel Lifting**

Experience

STRENGTH

A wide range of high-performance winches available in 13 sizes, built to stand up to the harsh conditions typical of shipyard applications and requirements found throughout the marine industry.

Experience

RELIABILITY

Based on the consolidated expertise and engineering skills of a leading manufacturer, these winches demonstrate their innate reliability while providing solutions for cranes, tensioners and personnel lifting applications.

Experience

PERFORMANCE

Ready to perform at any temperature, thanks to a special steel structure, these winches are ready for electric motorization if desired and fully certified before they leave our factory.
